OBJECTIVE

Aspiring Node.js Backend Developer focused on building efficient and secure CRM systems, seeking an internship to apply my Node.js, MongoDB, and backend development skills. Eager to develop robust RESTful APIs that integrate seamlessly with the front end, enhancing user experience and streamlining business processes while gaining hands-on experience.

EDUCATION

03/2023-03/2024	**Full Stack Web Developer** PHYSICS WALLAH
07/2018-01/2022	**Bachelor of Computer Application** Integral University, Lucknow

EXPERIENCE

OCPL TECH
02/2024-07/2024

LEAD MANAGEMENT CRM

We developed a comprehensive CRM system to manage app leads, client documents, and the sales and operations teams. This platform enhances efficiency and client experience by automating processes and ensuring data security and compliance. Lead Management: Automated lead capture, tracking, and assignment to team members. Document Management: Secure storage, sharing, and version control of client documents. Sales Management: Visualized sales pipeline and automated sales tasks. Operations Management: Task assignment, tracking, and workflow automation.
